Kahua O Kāneiolouma

June 18, 2019

To Whom It May Concern,

We are grateful to have Kāneiolouma as our neighbor. We encourage our guests to visit the historic site. It is so important that our visitors learn more about the true Hawaii and experience a culturally rich destination. It is our honor to send our guests up the street to view the remnants of this ancient Hawaiian Village.

The complex is so well cared for by Malama O Kāneiolouma. We watch as visitors walk by or park on the side of the road to explore the overlook and read the signs. Many times, you will see Rupert or one of his team talking story with the visitors. Talking story and experiencing Rupert's love and investment in the preservation of the culture is a treat.

Our condominium homeowners have enjoyed a several group tours led by Po'o Rupert Rowe. They are so impressed with the history surrounding the complex. Many of them purchased second homes here at Kiahuna because they loved the beach, not knowing much about the neighborhood. They are now impressed that Po'ipū has such a rich cultural, historical background thanks to Rupert and the Hui Malama O Kāneiolouma. They encourage their family and friends to visit Kāneiolouma and learn more about the area and its significant place in Hawaiian History.

Kāneiolouma is definitely an asset to the Po'ipū area. It sets us apart from other visitor destination areas. We are proud to share the cultural and historical heritage of our area with our owners and guests. We look forward to continued partnership with Kāneiolouma.

Me ka Aloha,

Chris A. Gampon
